

Fourth Circular  
Call for Abstracts

## GELMON 2020

**ONLINE!!!**

**Deadline extended**

**“Fifth International Workshop on Geoelectrical  
Monitoring”**

**November 18<sup>th</sup> to November 20<sup>th</sup>, 2020**

Supported by:

 Geological Survey of Austria

 Bundesministerium  
Bildung, Wissenschaft  
und Forschung

 KIGAM

 AGS  
Bayerische Geologische  
Landesamt

Due to the global COVID-19 pandemic and to ensure the health and well-being of all participants, we are happy to announce that the organization committee has decided to move the GELMON 2020 to a virtual format.

GELMON 2020 will be held solely **online**, this will allow abstract authors to share presentation materials and open these for live discussion to the public.

To foster scientific discussion and to support cooperation among scientific groups, the Geological Survey of Austria invites to the **“Fifth International Workshop on Geoelectrical Monitoring”**, which will be held online from **November 18<sup>th</sup> to November 20<sup>th</sup>, 2020**.

The scope of this workshop should not only be the presentation of state-of-the-art results, but significant time will also be reserved for the discussion of special topics of data acquisition, processing, inversion and interpretation. Special topics could include:

- Monitoring case studies in general (CO<sub>2</sub>, landslides, embankments, permafrost, ...)
- Inversion and Modelling
- Data Quality Assessment
- Infrastructure Monitoring
- New fields of application
- Standardized data format for geoelectric (monitoring) data
- Induced polarization
- ... other topics are welcome

Please keep in mind that just monitoring related contributions will be accepted.

The **scientific program committee** will later decide upon special topics and lead the respective sessions.

The organization committee of the GELMON2020 is looking forward to your contributions. As we want to address scientists from all over the world, we would kindly ask you to **forward this invitation** to any other colleague who might be interested in this event.

Final deadline for submission of **abstracts** (max. 1 page, 12 pt.) is **September 30<sup>th</sup> 2020**.

**Registration** is open from **now to November 6<sup>th</sup> 2020**.

[Please use this registration form](#)

[Please use this template for abstracts](#)

Please send the registration form and the abstract to [gelmon@geologie.ac.at](mailto:gelmon@geologie.ac.at).

**The Workshop is free of charge!**

There will be only oral presentations (15 minutes) and no poster sessions.

The workshop will be held using Cisco WebEX, which can be downloaded for free

<https://www.webex.com/de/video-conferencing.html>.

It is also intended to broadcast the workshop via Youtube livestream.

For reference to the first four workshops, you can find the abstracts here:
