## GELMON 2022

“Sixth International Workshop on Geoelectrical Monitoring”

November 22<sup>nd</sup> to November 23<sup>rd</sup>, 2022 - ONLINE

Supported by:

 Geological Survey of Austria

 Bundesministerium  
Bildung, Wissenschaft  
und Forschung

 **AGS** Österreichische Geophysikalische Gesellschaft  
Austrian Geophysical Society

Due to the still unclear COVID-19 situation, especially for fall 2022, the organization committee has decided to hold the GELMON 2022 in a virtual format.

The organizing committee aims to hold the next workshop in 2024 in a hybrid mode.

To promote scientific discussion and to support cooperation among scientific groups, the Geological Survey of Austria invites to the “**Sixth International Workshop on Geoelectrical Monitoring**”, which will be held **online from November 22<sup>nd</sup> to November 23<sup>rd</sup>, 2022.**

The scope of this workshop should not only be the presentation of state-of-the-art results, but significant time will also be reserved for the discussion of special topics of data acquisition, processing, inversion and interpretation. Special topics could include:

- Monitoring case studies in general (CO<sub>2</sub>, landslides, embankments, permafrost, ...)
- Inversion and Modelling
- Data Quality Assessment
- Infrastructure Monitoring
- New fields of application
- Induced polarization
- Developments in instrumentation
- Test sites
- ... other topics are welcome

Please keep in mind that just monitoring related contributions will be accepted.

As we want to address scientists from all over the world, we would kindly ask you to **forward this invitation** to any other colleague who might be interested in this event.

For companies we offer the possibility to present themselves and their newest technological developments in a separate session. If you are interested, please contact [gelmon@geologie.ac.at](mailto:gelmon@geologie.ac.at).
