3rd Circular

2nd International Workshop
on Geoelectrical Monitoring

GELMON 2013

VIENNA, 4 - 6 December 2013

Supported by:

The Workshop

Geoelectrical monitoring has significantly developed over the recent years as an emerging branch in applied geophysics. As the big success of the "1st Workshop on Geoelectrical Monitoring", held 2011 in Vienna, proved, geoelectrical monitoring is one of the most innovative emerging branches in the area of applied geophysics within recent years. It is now applied to solve problems in key areas of public and political interest, such as natural hazard mitigation, agriculture optimization, CO₂ storage and groundwater exploration. To foster scientific discussion and to support cooperations among the scientific groups, the Geological Survey of Austria (GSA) invites to the

"Second International Workshop on Geoelectrical Monitoring",

which will be held in Vienna from 4 – 6 December 2013.

Within three days, more than 50 speakers are going to present state-of-the-art results on geoelectrical monitoring. Significant time will also be reserved for discussion of special topics, whereas two special discussion groups will focus on "Temperature correction of geoelectric monitoring data" and "Quality assessment of monitoring data", respectively. A Panel Discussion on future perspectives of geoelectrical monitoring, and especially possible applications to hydrocarbon exploration, will close the workshop.

On December 3rd a Special Course on Geoelectrical Monitoring – 4D Data Inversion and Monitoring Instrumentation (J.-H. Kim, R. Supper) will be held (max. number of participants: 20). Some limited places for the Special Course are still available.

Registration and Deadlines

As the registration deadline for the workshop is arriving soon, please register as soon as possible by email and state your intent to participate in the workshop or book the special course. Due to administrative reasons the workshop will be limited to 100 participants.

Deadlines:

Registration for Special Course (€ 200):

November 25th, 2013

Registration for Workshop (€ 200):

November 25th, 2013

On-site registration (€ 250):

December 3rd-6th, 2013

Submission of extended abstracts:

January 31st, 2014

The registration should be done by email to:

stefanie.gruber@geologie.ac.at (reference "GELMON 2013").

For registration on the special course a short email stating your intent to participate will be sufficient. However participation is only guaranteed by timely payment of the registration fee by bank transfer to:

BIC: BAWAATWW – IBAN: AT781400004610769697
Purpose: "GELMON 2013 registration workshop / special course"
Owner: "Geologische Bundesanstalt Teilrecht"

For companies and institutes there will be the opportunity to present their products and research in the form of a company booth, which will be on display during the conference in a special room adjacent to the main conference room. For further information please contact robert.supper@geologie.ac.at.

Depending on the availability of free places in the workshop a certain amount of reduced fare participation tickets will be available for active students under 26 (€100, send application to above email).

Scientific Program Committee:

SUPPER Robert (Geological Survey of Austria)

KIM Jung-Ho (Korea Inst. of Geoscience and Mineral Resources)

CHAMBERS Jonathan E. (British Geological Survey)

TSOURLOS Panagiotis (Aristotle University of Thessaloniki)

DAHLIN Torleif (Lund University)

Information for Speakers

The time reserved for oral presentations is 15 minutes (max.) plus 5 minutes of discussion. Please consider that we strictly have to follow the schedule, which is very tight due to the large number of presentations.

The time reserved for poster presentations is 5 minutes. The poster-size should not exceed 160x160 cm.

The Venue and Time Schedule

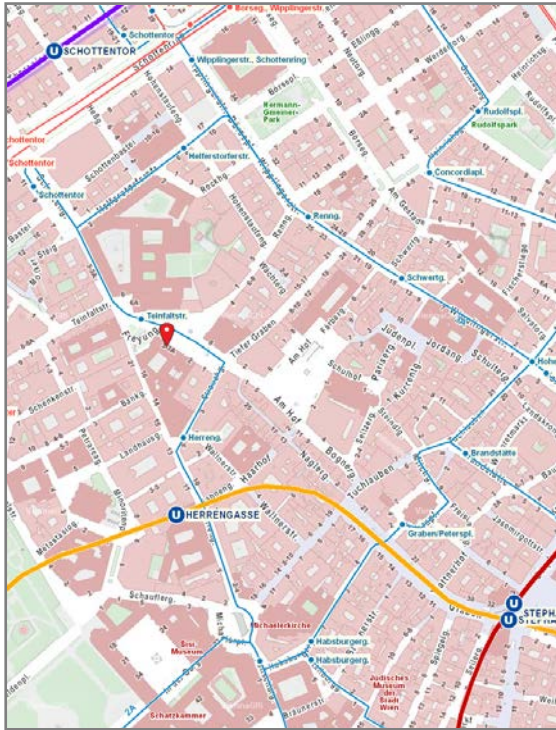

The workshop will be held in the Presentation Hall of the Ministry of Science and Technology (BMWF), Freyung 3, 1010 Vienna.

The workshop will start on Dec. 4th, 10:00 a.m. and close on Dec. 6th, 01:30 p.m.

The special course will be held at the main building of the Geological Survey of Austria, Vortragssaal, ground floor (intermediate storey), Neulinggasse 38, 1030 Vienna on Dec 3rd, 10:00 a.m. to 05:00 p.m.

Participants have to bring their own laptop.
